N.B.—Candidates may also take up, if they so desire, one additional subject out of the last named group of five subjects, provided they have not already taken the subject. The additional subject so taken shall be considered as the optional subject under rule 8A of the University Regulations for the I.A. Examination.

(*ii*) I.Sc.—English, Bengali (Vernacular), Mathematics, Physics and Chemistry.

(*iii*) B.A.—English, Bengali (Vernacular) and any two of the following subjects:—Mathematics, History, Economics, Mental and Moral Philosophy, and a Second Language, viz., Bengali or Sanskrit or Persian or Arabic.

(*iv*) B.Sc.—Physics, Chemistry and Mathematics.

2. Students who seek admission to the College must apply in the prescribed Admission Form which can be had from the College office on personal application or by sending a stamped cover. A limited number of women students is also admitted to the College.

3. Students who have passed the University Examinations creditably can be admitted to the College. Students who come with transfer certificates from other colleges can only be admitted if their attendance and progress in studies at the college where they last studied, are considered satisfactory. Plucked candidates are required to produce the "Admit Card" and the "Cross List".

4. Students who do not reside with parents or legal guardians must live in one of the College hostels. Permission to live with local guardians can be granted only in exceptional cases.

5. Arrangements have been made to divide the students into groups and place them under the effective and intimate guardianship of their teachers. Any change of address must immediately be notified to the College office.

6. Students must obey the rules and discipline of the College including those of the College Union. Absence from College Examinations without leave is a breach of College discipline. No student can be promoted to a higher class or sent up for a University Examination unless he has appeared at College Examinations and has been regular in attendance.

7. Attendance at games or organised physical exercises under the guidance of the Physical Instructor is compulsory.

8. *Hostels.*—There are two hostels attached to the College—one for the Hindu students and another for the Muslim students. (*a*) The messing charge in the Hindu hostel is Rs. 11 per month (including the establishment and light charges). In case of a deficit, the amount spent in excess is shared equally by the boarders. (*b*) In the Muhammadan hostel the messing charge is Rs. 8 per month. In addition the charges for electric consumption for lights are shared equally by the boarders. (*c*) The monthly seat rent is Rs. 2 in both the hostels. (*d*) Two of the students belonging to the educationally backward classes (i.e., Scheduled Castes) can be given rent-free seats in the Hindu hostel out of a grant received from the University of Calcutta. (*e*) Students seeking admission to the hostels should apply to the Superintendents personally. The health of the boarders has all along been satisfactory.

9. Students pay on admission to the hostel Rs. 3 as admission fee and Rs. 6 as caution money. The caution money is refunded only when the boarder finally leaves the hostel, provided all dues have been paid. But this money shall be forfeited to the hostel fund in the case of expulsion from the hostel. Out of the income of certain trust funds a few stipends are awarded to poor but meritorious students residing in the College hostels.

10. *Fees.*—(*a*) Students pay on admission to the College an admission fee equal to the tuition fee of the class for one month.

(*b*) They also pay an annual consolidated subscription of Rs. 5 for the College Union, viz., Rs. 2 for the Athletic Club, Re. 1 for the College Magazine, Re. 1 for the Common Room and Re. 1 for other activities of the Union. This subscription is payable at the time of admission and subsequently in the month of July every year.

(*c*) They further pay an annual fee of Re. 1 as printing charges.

(*d*) They also contribute a sum of Re. 1 (rupee one) per year towards the Students' Aid Fund from which poor and needy students get help in meeting their tuition fees. This amount is also payable in the month of July every year.

(*e*) Students whose names have not already been registered in the University pay a registration fee of Rs. 2 (and money order commission of annas 2) as laid down in the University Regulations.

11. All students are also required to make a library deposit of Rs. 5 each and the I.Sc. students a laboratory deposit of Rs. 10 each, and the B.Sc. students a laboratory deposit of Rs. 15 each. The caution money is forfeited by Government if not withdrawn by the students within five years of the date of deposit.

12. (*a*) Monthly tuition fees are as follows:—for students of the I.A. Classes Rs. 6; for students of the B.A. and I.Sc. Classes Rs. 7; and for students of the B.Sc. Classes Rs. 8.

Public Service Commission, Bengal.

NOTICE.

WITH reference to the Bengal Civil Service (Judicial) Recruitment Rules, 1941, published in the "Calcutta Gazette" of the 12th June 1941, it is hereby notified that 38 appointments to the Service will be made during the year 1941. In accordance with the Bengal Communal Ratio Rules 50 per cent. of the appointments will be filled by Muslims, 15 per cent. by Scheduled Caste candidates and the remainder by other non-Muslim candidates, provided that suitable candidates from these communities are available.

2. In general relaxation of rule 5 of the Standard of Qualification Rules, candidates who were eligible in all respects on the 1st of January 1937, 1938, 1939 or 1940, for appointment but have since become ineligible on account of age due to non-recruitment to the Service since 1937 are also permitted to apply.

3. Persons eligible under the Rules who may wish to apply should submit their applications in the prescribed form, copies of which may be obtained from the Secretary, Public Service Commission, Bengal, Anderson House, Alipore, 24-Parganas, personally or **on sending an addressed envelope with a five pice postage stamp.** The applications must reach the Secretary, complete with necessary certificates, treasury chalan, etc., not later than the 26th July 1941.

4. Persons wishing to apply to Government for relaxation of the prescribed age limit must address the Secretary in the Judicial Department before the 10th July 1941, after which no such application will be entertained. A copy of the Government sanction must accompany a candidate's application to the Commission without which no application can be considered.

5. A number of candidates considered prima facie suitable will be called upon to appear before a Medical Board for a certificate of their fitness for Government service in form A of Schedule IV of the Bengal Provincial Services Recruitment Rules; an order to appear before the Medical Board must not, however, be understood to mean that the candidate, if found fit, will necessarily receive an appointment as the number of candidates who will be summoned for medical examination will be in excess of the total number of vacancies, and the question of his appointment will depend upon the results of the medical examination taken as a whole; intending candidates are advised before they apply for recruitment to the service to satisfy themselves that they are likely to qualify as physically fit, for experience has shown that a considerable number of the candidates are rejected by the Medical Board as unfit.

STATEMENT OF OBJECTS AND REASONS.

The Royal Commission on Labour in India made two separate recommendations regarding the provision of maternity benefits, one for women employed in perennial factories and the other for women employed in plantations. The recommendation regarding perennial factories has been implemented by the passing of the Bengal Maternity Benefit Act, 1939, the object of the present Bill is to implement the recommendation regarding plantations. On enquiry it transpired that the system of paying maternity benefits in some form or other was in vogue in the majority of the plantations, but it is considered that some sort of legislative compulsion is necessary to regularise the system and to extend it to those plantations where it does not exist at present. This Bill is designe to secure this object. The matter was discussed in a Conference with the representatives of the majority of the tea plantations and the provisions contained in the Bill are based mainly on the conclusions reached in that Conference.

Factory smoke.

The Bengal Smoke Nuisances Commission commenced its activities in 1906 for the abatement of smoke emission within the areas controlled by the Calcutta and the Howrah Municipalities. The average emission of black smoke recorded per chimney was at that time 13·1 minutes per hour; to-day it stands at 10 minutes. Much of this success is due to the generous co-operation of the factory owners with the Commission. It is realised that smoke is coal and in its prevention lies a gilt-edged investment.

General control by the Commission.

The Commission which represents all the interests concerned in the abatement of smoke nuisance held 11 meetings in the year under review. It maintained contact, as in the past, with the various smoke departments, fuel, engineering and research institutions in Europe and America and kept abreast of the latest progress in the scientific use of fuel towards the abatement of industrial smoke.

During the year action was taken as under:-

Offences reported for departmental action	...	4,351
Offences reported by telephone for departmental action	...	1,077
Inspections and tests of installations	...	4,533
Statutory warnings served	...	16
Prosecutions	...	50
Convictions	...	30

In addition to the above preventive action 615 steam ships and 342 locomotives were reported to the local marine and railway authorities for their usual departmental action which in all cases was readily undertaken.

Since the appointment of the two smoke observers in October 1938 the area under the control of the Commission including the river has been kept under constant observation. The number of reports for offences thus detected increased very largely; and the Inspectors having thus been relieved of observation duty, were engaged in inspection duty and in imparting technical advice to offenders.

The Inspectors met with difficulty in proving in Court the official records of smoke observation in prosecution cases and the Court Inspector had to be engaged to conduct contested cases. The maximum fine imposed for offences under the Act was Rs. 175 and the minimum Rs. 10.

Of the 50 prosecutions which were launched (Appendix II) one was acquitted and one was dismissed for want of proper evidence and one was warned. Seventeen cases had to be withdrawn because the requirements of the Act were complied with in the meantime.

It may be again stated that the policy of the Commission is to give advice and not to be unduly repressive.

Observation of smoke.

A constant watch is kept on smoke nuisance from the Central Smoke Observatory which is equipped with a telephone so that the owner or manager of an offensive chimney may be called up and the emission of smoke of prohibited density immediately brought to his notice. Observations of locomotives, steamers, launches, road-rollers and minor industrial plants are taken locally. The total number of observations made during the year was 10,053 against 7,966 of the previous year.

Plans for furnaces, flues and chimneys.

Well designed plants are necessary for smoke prevention and fuel economy and it is not only obligatory but convenient to consult the Commission whose wide experience is always at the disposal of the public. Smoke prevention must begin at the furnace and not at the chimney top. Properly proportioned furnaces, flues and chimneys increase the power of the plant and reduce the overload and fuel costs and, on the other hand, avoid trouble in complying with the requirements of the Smoke Nuisances Act.

During the year the Commission examined and approved 68 plans of which 54 were made in the office of the Commission, covering nearly all types of industrial furnaces. The number of plans approved by the Commission since 1916, when the Act was amended to govern construction of or alteration to plants, now totals 1,519. The low average emission of smoke per chimney (Appendix I) has been attained through this most important measure.

The total fees received during the year on account of plans, etc., are detailed below:—

		Rs.
For making plans	...	439
For approval of plans	...	568
For final inspection of chimney, etc., and grant of permission	...	1,403
Total	...	2,410

Complaints.

The Commission cannot with its small staff regularly keep in touch with every case of smoke nuisance within its controlled area of approximately 80 square miles. It has again been indebted to the public for bringing cases to its notice by means of complaints. During the year 84 complaints were received against 80 in the preceding year. The Commission once more assures the public that on receipt of a complaint prompt and careful enquiry is made. Relief is given wherever possible and the Commission endeavours to see that industry is not subjected to unreasonable demands.

Reduction of smoke by electricity and gas.

Electricity.

The application of electricity and gas to meet domestic requirements has an important bearing on the general comfort and the health of the public and it is pleasing to record that there is an increased demand by property owners for smokeless appliances as these contribute to the city's health.

Electric appliances both for commercial and domestic use should be encouraged as permanent remedies for atmospheric pollution.

The Calcutta Electric Supply Corporation state as follows:—

> "During the year 1939 they have signed agreements for the supply of electricity to large works and mills in their licensed areas to a value of over 20,000 H.P. of which more than 8,200 H.P. is required to replace the existing steam turbines and steam engines. In addition to the foregoing there have been a number of smaller works and factories which adopted electrical drives in place of steam engines during the past year."

Gas.

The contribution made to the solution of the city's smoke problem by the Oriental Gas Company,, Ltd., increases every year. They report a continued increase in the installation of cooking and water heating appliances for domestic purposes and they have fitted up several large blocks of flats with gas appliances during the year. They state that the demand for gas heated appliances during their last financial year (ending 30th June 1939) continued very satisfactorily.

During the period the number of appliances installed showed an increase of 1,093 nett.

Seven hundred and seven cooking appliances comprising cookers, hot plates, grillers, ring burners were fitted for domestic, hotel and restaurant use.

Three hundred and eighty-six water heating appliances (geysers, etc.) were installed.

They have also been very successful in the industrial field and the sales of gas for industrial purposes has doubled within the last few years.

The value of gas as a smokeless fuel in a convenient form is readily appreciated by property owners and residents and, in many cases, gas appliances have been installed to take the place of coal "chulas" and solid fuel boilers.

Inspectorate.

During the year Mr. R. Grant, Chief Inspector and Secretary, was assisted by Mr. B. N. Mitter and Mr. B. Mukerjee, Inspectors of Smoke Nuisances.

Conclusion.

The Commission records its grateful thanks to the various smoke fuel and engineering research departments. Thanks are also due to those local owners, managers and engineers whose co-operation and valuable assistance have greatly helped the Commission, and to the technical staff for their energy and loyalty in carrying out the policy of the Commission.

R. GRANT,
Chief Inspector and Secretary.

Director of Public Health, Bengal.

Report on the Administration of the Bengal Children Act, 1922, the Bengal Suppression of Immoral Traffic Act, 1933, the Bengal Borstal Schools Act, 1928, and the Reformatory Schools Act, 1897, for the year 1939.

The Bengal Children Act extends to the town of Calcutta, the suburbs and the port of Calcutta, the municipality of Howrah, the police-stations of Bally, Jagacha, Sankrail and Domjur in the district of Howrah and the police-stations of Baranagar, Barrackpore, Titagarh, Noapara, Khardah, Naihati and Jagatdal in the district of the 24-Parganas. The following sections of the Act have not yet been brought into force in any part of Bengal:—

Section 27 (*1*), (*i*), (*ii*), (*iii*), (*a*), (*b*), (*c*), (*d*), (*e*) and (*f*).

Section 27 (*2*), (*a*), (*b*), (*c*), (*d*) and (*f*).

Section 28 (*2*).

The Bengal Suppression of Immoral Traffic Act is in force in the town, suburbs and port of Calcutta and at Panihati in the district of the 24-Parganas.

Sections 2-12, 22-26, 27 (*1*) and 27 (*2*) (*a*) of the Immoral Traffic Act, and the Schedule to that Act were extended in 1939 to—

(*i*) Barrackpore police-station (excluding the Barrackpore Cantonment) in the district of the 24-Parganas,

(*ii*) the Tippera district.

The Reformatory Schools Act applies to that part of the province in which the Bengal Children Act is not in force.

Boy offenders dealt with by Courts in the Children Act area are sent to the Reformatory and Industrial Schools at Alipore and those from outside this area are sent to the Reformatory School at Hazaribagh in the province of Bihar under the provisions of the Reformatory Schools Act.

2. During the year 1939, 5,956 children were dealt with by the Central Children Court, Calcutta. The great majority of these were sent up for offences under section 66 of the Calcutta Police Act; 21 were prosecuted under the Bengal Children Act, 9 under the Bengal Suppression of Immoral Traffic Act, and about 325 for theft and similar offences under the Indian Penal Code and the Indian Railways Act.

Seventy-six of these children were sent to a school or other place of custody, distributed as follows:—

Reformatory School, Alipore	...	48
Industrial School, Alipore	...	21
Gobinda Kumar Home, Panihati	...	2
Salvation Army Home, Behala	...	3
All-Bengal Women's Industrial Home	...	2
Total	...	76

Others were fined or made over to their guardians, while most of those sent up under the Police Act were warned and discharged.

3. The Reformatory and Industrial Schools, Alipore, which are for boys only, are wholly maintained by Government. The Salvation Army Women's Industrial Home at Behala, an aided institution, provides a Reformatory School for girls.

The following have been notified as places of suitable custody under section 28 (*1*) of the Bengal Children Act and under section 27 (*2*) (*b*) of the Bengal Suppression of Immoral Traffic Act:—

(*a*) The Gobinda Kumar Home, Panihati.

(*b*) The Salvation Army Women's Industrial Home, Behala.

(*c*) The Calcutta Protestant Home, commonly called the Fendall Home.

(*d*) The Society for the Protection of Children in India, Calcutta.

(*e*) The All-Bengal Women's Industrial Union.

Controlling agencies.

4. The Director of Public Instruction, Bengal, continued to be the Chief Inspector of Reformatory and Industrial Schools; Khan Bahadur A. Rahman and Mr. R. G. P. S. Fairburn were the Assistant Inspectors. The Inspectress of Schools, Presidency and Burdwan Divisions, was the Assistant Inspector of Reformatory and Industrial Schools for Girls.

The places of suitable custody recognised by Government as eligible for grants are inspected by four ladies appointed for the purpose.

5. The following is a brief summary of the activities of the various institutions working under these Acts:—

(*1*) *Reformatory and Industrial Schools, Alipore.*

These schools which have been established by Government under section 6 (*1*) of the Bengal Children Act are under the general administrative control of the Director of Public Instruction, Bengal, while their immediate management is vested in the Superintendent and a Managing Committee appointed under section 7 (*1*) of the Act.

The combined institutions have accommodation for 194 boys and the entire cost is met from provincial revenues. The accommodation in the schools is inadequate for their purposes. There is a proposal for the removal of the institutions to a new site near Tollygunge so as to provide increased accommodation, and this is under the consideration of Government.

On the 31st December 1939, the number of boys was 197 in the Reformatory School and 72 in the Industrial School, making a total of 269 against a total of 277 in the previous year.

The number of fresh admissions was 77 in all, viz., 53 in the Reformatory School and 24 in the Industrial School, of whom 74 had been convicted of theft or similar offences.

One hundred and forty-two of the boys in the two schools on the 31st December 1939 were Hindus and 124 Muslims and there were 3 Christians in the Reformatory School, but none in the Industrial School.

The number of Bengali-speaking boys decreased from 124 in 1938 to 112 in 1939, while the number of Hindi-speaking boys increased from 71 to 76. The number of Urdu-speaking boys rose from 62 to 70. Of the 269 boys in the two schools, only 112 belonged properly to Bengal while the rest were inhabitants of other provinces but were either domiciled in Bengal or had come temporarily mainly from Bihar, United Provinces and Orissa.

Fifty boys were released from the Reformatory School and 7 from the Industrial School on the expiry of their terms. Sixteen boys of the Reformatory School and 1 boy of the Industrial School were released on license. Of the boys released during 1939, 19 were made over to the Bengal After-Care Association and the rest to their guardians.

Nine boys escaped from the Reformatory School, but none from the Industrial School. Out of these, 3 escaped from the School, 1 on his way home when allowed to go with his mother and 5 from outside hospitals to which they had been sent for the treatment of T. B.

Primary education is imparted up to Class V and the boys also receive vocational training in tinsmithy, blacksmithy, carpentry, weaving and tailoring. The education of boys is conducted through the medium of Bengali, Hindi and Urdu in accordance with the approved syllabus. The results of the annual examinations were good. Facilities were given for moral and religious instruction and observance. As in previous years, boys whose conduct had been found to be good were allowed to visit their homes and other places of interest during holidays and on other various occasions. This freedom was found to have a very beneficial effect on the boys and the granting of it has been extended.

The diet of the boys was good. The general health of the boys was good owing to excellent sanitation.

The total expenditure on the schools in 1939 was Rs. 60,124 against Rs. 60,244 in 1938, and the average cost of maintaining each pupil was Rs. 222 against Rs. 223 in 1938. The schools have been doing good work under conditions which are in many respects far from ideal. Lack of accommodation has become chronic.

(2) Hazaribagh Reformatory School.

The Reformatory School at Hazaribagh under the control of the Government of Bihar continued to receive youthful offenders of this province, sent by the courts of the districts in which the provisions of the Bengal Children Act have not been extended. The number of admissions from Bengal during 1939 was 46 only.

During the year under review 5 boys who had been convicted in Bengal were discharged from the school under section 13 (2) of the Reformatory Schools Act of 1897.

(3) Gobinda Kumar Home.

This Home is intended for the reception of Indian girls dealt with under the Bengal Suppression of Immoral Traffic Act and the Bengal Children Act.

On 31st December 1939, there were 81 girls varying from 8 to 16 years of age as against 90 in 1938. All the girls were Hindus. Of them 3 belonged to other provinces and the remainder were Bengalis. There

were 4 fresh admissions during the year. Of these 2 were cases under the Bengal Children Act and two were dealt with under the Civil Procedure Code.

There is a school attached to the Home in which training is given up to Class V of the Middle Vernacular School. There are 3 junior trained teachers besides the Superintendent and a matron. The girls are also taught weaving, sewing, and needlework.

The general health of the girls was good and their conduct satisfactory.

The cost of maintaining the Home during 1939 was Rs. 13,522 of which Rs. 8,174-13 was met by Government grant.

(4) Salvation Army Women's Industrial Home for girls at Behala.

This Home also caters for Indian girls dealt with under the two Acts. Its present capacity is 120 girls. The number of girls in the Home on 31st December 1939 was 82.

Two Bengali Hindu girls of 14 to 15 years of age were sent to the Home by Courts during the year. They were dealt with under the Immoral Traffic Act.

Educational progress in the Home was fair in most cases; the health of all the girls was good during the year. The girls were taught sewing and house-work in addition to general education.

The Home received from Government a maintenance grant of Rs. 1,200 in addition to Rs. 2,654 on account of capitation grant for the girls sent there by Courts.

The total cost incurred in the maintenance of the Home during the year was Rs. 12,209-4 and the cost of maintaining each girl during the year was Rs. 14-2-7. The amount contributed by the Salvation Army Fund was Rs. 8,354.

(5) The Calcutta Protestant Home (the Fendall Home).

This Home is a rescue home for European and Anglo-Indian women and girls. Girls are sent to the Home by various churches and social bodies. A fair number of girls were sent needing a home while looking for work, while some came there in trouble.

The record of the Home during the year 1939 is shown below:—

Married	7
Situations as children's nurses ...	23
Stenographer	1
Died	1
Gone to school	7
Girls in the Home during unemployment ...	15
Girls in the Home	36
Total ..	90

The chief source of income, apart from subscriptions, is derived from the work the girls do for Calcutta firms, in making tea bags, jharans and bank bags. The girls also do fancy work of all kinds and are paid according to the quantity and quality of the work done and the balance goes to the Home.

The health of the girls was good on the whole.

No girl dealt with under the Bengal Children Act or the Immoral Traffic Act was sent to the Home during the year under review.

The Home received the usual maintenance grant of Rs. 960 from Government and its income from collections and donations amounted to Rs. 6,718 in 1939 as against Rs. 6,706 in the previous year.

(6) Society for the Protection of Children in India.

The number of children in the Society's custody on 31st December 1939 was 218, viz., 97 boys and 121 girls. The number of children who passed into its custody during the year was 36.

The Society received usual maintenance grant of Rs. 1,000 from Government. The total expenditure during the year amounted to Rs. 38,574-5.

(7) The All-Bengal Women's Union.

The All-Bengal Women's Union has been recognised by Government for the purposes of clause (*c*), sub-section (7) of section 4 of the Bengal Supression of Immoral Traffic Act, and also for the purposes of clauses (1) and (2) of section 14 of the same Act. The After-Care Home called "The All-Bengal Industrial Institute" at Dum-Dum Cantonment, established by the Union, also caters for Indian girls dealt with under the two Acts. Its present capacity is 25 girls; and the total number of girls at the close of the year was 18. There were 3 new admissions. Of these 2 were Hindus and 1 Muslim and all of them were dealt with under the Immoral Traffic Act.

The inmates of the Home receive general education and they are taught weaving and needle-work and are also given training as girl guides.

The health of the girls was fairly good on the whole.

The cost of maintaining the Home during the year was about Rs. 4,500. The Union received a Government grant of Rs. 150 and from His Excellency the Governor Rs. 500 during the year. The average cost of maintaining a girl was Rs. 17-11-6.

(8) The Borstal School at Bankura.

The School has functioned for 12 years commencing from the year 1928 when the Bengal Borstal Schools Act was passed. The record of work in the School for 1939 has been highly satisfactory and shown further improvement in its administration as an instrument of far-reaching value to society.

General statistics.—The number of inmates confined in the school at the commencement of the year was 248 against 263 in the previous year. One hundred and ten were admitted during the year against 116 in

1938, and 112 were discharged for all causes against 131 in the previous year, leaving a balance of 246 at the end of the year. The daily average strength of the boys was 237·16 against 242·36 in the previous year.

Of the total admissions 50 were received from central jails, 30 from district jails, 27 from sub-jails, 1 each from the Dharwar Borstal School and the Alipore Reformatory School and 1 on revocation of license.

Of the total discharges, 6 were transferred to jails, 29 released on expiry and 76 on license, and 1 died in the school hospital.

Classification.—As stated in the previous reports, classification of the boys, which requires a careful study of their antecedents and behaviour, was carried out according to their age and conduct, and this falls under the heads "House system," "Group system" and "Grade system."

House system.—Besides the six "Houses", viz., White House, Green House, Blue House, Red House, Evelyn House and Black House, one more "House" termed "Junior Red House" was added, so as to facilitate better protection and treatment of boys of comparatively tender age.

Group system.—Subdivisions of the "Houses" into small groups were continued as in previous years and these were controlled by the house-masters, captains and prefects selected from amongst the best boys, with the help of senior lads.

Grade system.—The boys were also graded into ordinary, star, special star and penal classes according to their conduct, health, intelligence, etc. The star and special star class boys were allowed to earn "Badge money". They got special food, as also special uniform. Penal class boys were those who were on punishment and were generally of anti-social habits. They were not allowed to mix with the general class of boys and were given black shirts and shorts to wear. During the year under report there were on average 10 special star class and 78 star class boys against 4 and 78 respectively in 1938.

The system of classification carried on proved to be of immense help in the formation of character of the boys and awakening in them a proper sense of duty.

Daily routine.—The daily routine as usual was so arranged that the inmates were kept engaged from morning till bed-time, except for meals and rest. Vocational training was imparted for five hours a day and literary training for two hours. The classes were held by rotation, one set of boys attended school while the other set worked in the work-shop. One hour's recreation was given to the boys daily. The rest of the time was taken up by games and sports and other forms of physical exercise including route march.

Vocational training.—The boys were trained under guidance of paid instructors in cloth, carpet and durrie-weaving, tailoring, book-binding, smithy, carpentry, net bag-making, cane and bamboo work, agriculture, horticulture, dairy and poultry farming according to the inclination and aptitude of the individual boys. Each boy was required to learn at least one subject. Boys were examined in different branches of vocational training and money prizes were awarded to four boys for

their proficiency, the prizes being called "Simpson prizes," after the name of Lt.-Col. N. S. Simpson, I.M.S., late Inspector-General of Prisons, Bengal. The show room attached to the school containing samples of all articles manufactured by the inmates continued to atttract visitors and facilitated sales.

Literary training.—Literary education was as usual imparted to the inmates. Though the general standard of education aimed at is primary, yet those boys who were found fit for higher education were coached up to the Matriculation Standard. One boy passed the Matriculation Examination and was placed in the first division. It is gratifying to observe that he is prosecuting higher studies in the University after release. There were as many as 23 standards of different classes with different languages. Examination of the boys was conducted by officers deputed by the Director of Public Instruction, Bengal. Out of 181 boys sitting for the annual examination, 138 came out successful. "Sir Walter Buchanan" prizes of the value of Rs. 20, Rs. 15 and Rs. 10-8 were as usual awarded, respectively, to the first three best boys. Altogether 63 boys got prizes at the prize distribution ceremony which is held annually. It is gratifying to observe that 79 boys who had been illiterate on admission acquired a knowledge of reading, writing and arithmetic.

Instruction in First Aid to the Injured was also arranged and one boy secured a certificate of proficiency during the year.

Physical training.—The boys had one hour's hard physical drill daily, under a paid instructor, after morning wash. They were also kept engaged in the afternoon and on Sundays and holidays with foot-ball, hockey, basket ball, volley ball, wrestling, horizontal and parallel bars, jumping, vaulting, bratachari, scouting and several indigenous games. The star and special star class boys and scouts were led out on route march every Sunday by the principal roads of the town.

The boys gave a demonstration of musical drill and a display of bratachari dancing at the local exhibition. They secured 1st class certificates in both the displays. The scouts joined the annual excursion of the Boy Scout Local Association, Bankura, and participated in the various acitivities of the excursion. The annual sports were held as usual on the school grounds with great success and prizes were awarded to the deserving boys.

Moral and religious instruction.—Boys were allowed all reasonable facilities for religious observances. Moral instruction was imparted to the Hindu boys by the honorary Hindu religious instructor on Sundays, to the Muslim boys by the Muhammadan religious instructor on Fridays and to the Christian boys by the Christian religious instructor on Sundays. The religious instructors also attended on special occasions.

Boy scouts.—The Boy Scout Troop named as "4th Bankura Borstal School Troop" continued to function. Twelve boys passed the tender foot examination. The scouts joined several functions during the year under report.

Recreation club.—The club called the "Simpson Memorial Club," situated within the school, continued to afford usual facilities to the boys for playing various indoor games and musical instruments. The purchase of bagpipe and side-drums from the Bankura Armed Police was an improvement of the club activities.

Library.—The school library added another collection of 89 books during the year and the total number of books at present stand at 924. The vernacular teacher of the school remained in charge of the library. The daily average number of books issued was 8·5.

Visiting committee.—Eight members constituted the committee which held 12 meetings during the year under report. Thanks are due to the Chairman and the other regular members of the visiting committee for the interest taken by them in affairs of the school and for their able advice in conducting the administration.

Cinema show.—The Calcutta Corporation Cinema Party went to Bankura to show their films in the exhibition held there. They were pleased to show the boys some instructive films on health and industry.

After-Care Association.—The Central After-Care Association at Belgharia, 24-Parganas, as also the District After-Care Association assisted the Borstal lads on their release in finding employment.

Of the 105 boys discharged from the school on licence of expiry, 3 boys were reported to have been prosecuting studies, 52 were employed in various ways, 17 remained unemployed, 18 untraced, 7 reconvicted, 1 escaped from the After-Care Association, while no reports were received in respect of the remaining 7 boys.

Career register.—The career register maintained in the school containing a consolidated history of every boy while at home, at the school and after discharge on the basis of the information obtained from the Bengal After-Care Association, police and other sources was found to be very useful.

(2) *Bengal After-Care Association for Juvenile and Adolescents.*

During the year 1939, the hostel attached to the Association was removed from Entally, Calcutta, to a commodious house at Kamarhati on the Barrackpore Trunk Road.

During the year the hostel received 132 new inmates of whom 80 came from the Borstal and 30 from the Reformatory School; 15 boys escaped, of whom 3 came from the former and 12 from the latter institution. Outside employment in suitable conditions was obtained for 62 boys. The health of the boys on the whole was good and discipline in the hostel showed distinct signs of improvement. Arrangements were made for regular recreation and for periodical outings.

The Association received the usual maintenance grant of Rs. 2,400 from Government.

During the year, the Director of Industries, Bengal, sanctioned a monthly grant of Rs. 30 to meet the salary of the Weaving Inspector.

The mufassal work of the Association is undertaken by several District Associations. New Branch Associations were formed in Howrah, Tipperah, Faridpur and Bakarganj. The work done by the District Associations in Mymensingh, Tipperah, Bakarganj, Dinajpur and Howrah was good.

Probation Work.

During the year under reference 334 children, dealt with under the Bengal Children Act and Immoral Traffic Act were on probation under the charge of 4 Probation Officers of whom 2 were ladies.

The probationers were, as usual, regularly visited by the Probation Officers who by keeping themselves in close and personal touch with the children and by means of friendly advice, moral persuasion and careful watch over their conduct and progress tried to bring about a new and healthy outlook of life among these unfortunate and misdirected children.

Most of the probationers have been making satisfactory progress in life and it can very well be expected that under the careful and sympathetic guidance of the officers many of them will turn out good and useful members of the society. The value of probation work, which mainly aims at moral and social upliftment, cannot be overestimated and this is being well performed by the Probation Officers.

Probation Officers made, as before, necessary intial enquiries into the antecedents, home conditions, relations, conduct, etc., of all the accused in serious cases tried in this Court. This greatly helps in removing, as far as possible, the maladjustments from which the children placed before the Court may have been suffering.

Probation records are maintained for each and every probationer, and these are shown to the Magistrate after every visit paid by the Probation Officers to their charges; monthly charts and reports are also prepared by them at the close of every month. The Presiding Magistrate of the Court visited the probationers from time to time to satisfy himself about their conduct.
